

Elect

Brian Eng

Director At Large

I currently live at Windmill Line Co-op in Toronto. I have been living there for two and a half years. Previously I lived in Oak Street Co-op and Spruce Court Co-op. **I have lived on housing co-ops for the last 21 years.**

I served on various committees and the Board of Directors at Oak Street Co-op. At Windmill Line I have been the CHF Canada/Co-operative Housing Federation of Toronto delegate, worked on a Subsidy Review committee and am currently working on a committee looking at our End of the Operating Agreement issues.

I have been very active in sector organizations over the years. I was President of the Co-operative Housing Federation of Toronto and a member of the Ontario Council of the CHF Canada.

I am currently a workshop instructor and 2020 Compass facilitator. I also chair meetings of boards and members.

In these capacities I have had the pleasure of working with hundreds of co-op members in dozens of co-ops over the last decade.

I am excited about serving on the Board of CHF Canada at this time. The sector is facing many challenges moving forward and I believe that I can make a significant contribution to strengthening our ability to respond to these challenges.

Securing the future.

I will work hard to help secure the future of:

- ◆ Our sector
- ◆ Our co-ops
- ◆ Our members

For me, securing the future means four things:

1. Making sure that we are **getting governance and management right** all levels
2. Developing innovative ways of promoting **co-operation among co-operatives.**
3. Promoting **leadership renewal** at all levels of the sector, ensuring a good mix of experienced leadership and fresh ideas in all areas of governance and management.
4. Ensuring that co-ops have the **necessary resources** to provide affordable housing and to make sure our co-op homes meet members' current and future needs.

There are lots of ways that we can accomplish these things and I look forward working with CHF Canada's members and members of our co-ops to find the ways of securing our future.

Thank you in advance for your support
